

Matthew Giannacco UNFINISHED!!!

321 890 3155 | matthew.giannacco@gmail.com | [LinkedIn](#) | Current Resume

EDUCATION

Bachelor of Science, Major in Electrical Engineering
Minor in Engineering Leadership, Minor in Computer Engineering
University of Central Florida

Spring 2028 (Expected)
Orlando, Florida

Associate of Arts
Eastern Florida State College

Fall 2024
Cocoa, Florida

TECHNICAL SKILLS

Tools and Applications | Excel, Matlab, LTSpice, CircuitLab,

Languages | HTML, CSS, JavaScript, LaTeX, C, Verilog (HDL), and MIPS Assembly.

Relevant Coursework | Linear Circuits I + II, Digital Systems, Computer Organization, Leadership in Engineering I

WORK EXPERIENCE

Undergraduate Learning Assistant (ULA)
University of Central Florida

September 2025 - Present
Orlando, Florida

- Supported instruction by attending lectures, maintaining communication with professors, and assisting with course administration through proctoring quizzes and exams.
- Provided direct academic support by holding regular office hours and offering after-hours tutoring.
- Held weekly circuit analysis lab sessions for about 90 students, leading them through textbook problems, experiments, and safe equipment use.

Ecommerce Data Intern
Pelican Sales

May 2024 - Jan 2025
Melbourne, Florida

- Managed pricing updates via Excel and Shopify to update prices and inventories for an ecommerce shop.
- Ensured timely inventory data accuracy through routine updates.

PROJECTS

Electrical & Computer Education: Peer Resource Sharing

May 2025 - Present

- Designed and developed Electrical & Computer Education (ecedu.org), a custom-built educational platform showcasing detailed course notes, problem solutions, and interactive learning resources for ECE classes, notably Linear Circuits I and Digital Systems.
- Implemented the site entirely using handwritten HTML, CSS, and JavaScript, without frameworks.
- Continuously maintaining and expanding the platform as an ongoing project, incorporating user feedback, adding new course content, and continuously improving the site's accessibility and technical robustness.

Project Kestrel

June 2025 - September 2025

- Project Kestrel is a student-led, interdisciplinary project affiliated with multiple UCF clubs and sponsored by Blue Origin.
- Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.

KR26 (with UCF Formula SAE: Knights Racing)

September 2025 - Present

- UCF Formula SAE is a student-run engineering organization that designs, builds, and competes with a formula-style race car in the annual Formula SAE competition.
- Currently designing and testing a strain gauge circuit with an operational amplifier for suspension load measurement, focusing on signal conditioning and reliable data acquisition.
